All Available Take Away.

**ColourDot
Coffee**

DRINK

We roast our own coffee under the brand: **COLOUR DOT COFFEE** For our new home: **COLOUR DOT MEREWETHER**. We source traceable coffee from reputable B-corp certified importers and roast on a local air roaster. This means that we have knowledge and input of the processes from the farm to your cup. The end result is a product that represents the quality and flavour that we love to drink. We roast to highlight the work put in by the producers at origin and is best enjoyed without milk. We pay substantially higher than average premiums to ensure that the quality and ethics are held throughout the entire process. We do all this because we love coffee, we love community and over all we desire a beneficial outcome for all throughout the supply chain.
