

Cooking is an exciting journey through the senses, an experience that captures the heart and the palate with every taste. Food for us is much more, it is a memory, an emotion, a person we love...

This is why the food that you are going to eat is a reference to the true Italian tradition... everything is made from scratch and with love, exactly as our nonne did.

artsinhabit.com

This space hosts a curated selection of Italian contemporary art.

The works are part of an ongoing project designed to bring art into everyday life: to be experienced, not only observed.
